FALL 1980

To serve you better and save you time, MUNI is about to provide better and more frequent crosstown bus service to many of the City's neighborhoods.

To serve you better and save you time, MUNI is about to provide better and more frequent crosstown bus service to many of the City's neighborhoods.

This leaflet describes the 19, 35, 44, and 54 lines, which will serve Potrero Hill and Bay View/Hunters Point.

- The 19-POLK will provide more frequent service to Potrero Hill, as it will no longer go to the SP Depot. It will be extended to run through the Southern part of Potrero Hill, ending at Evans and Mendell. During **rush hours only**, it will be further extended to the Hunters Point Triple A Shipyard (in place of the 42-SANSOME, which will no longer run on Third Street)
- The 35-EUREKA will provide new service to part of Potrero Hill.
- The 44-O'SHAUGHNESSY is a new crosstown line, connecting Bay View and Hunters Point with many other points in the City, including the Glen Park BART Station, McAteer High School, Forest Hill Station, Golden Gate Park, and the Richmond.
- The 54-WILLIAMS serves many new areas, and replaces the service of the old 51-SILVER along the Hunters Point ridge.
- The 42-SANSOME will only run downtown and will **not** serve Third Street or Hunters Point. The 15-THIRD will continue to serve 3rd Street, while the new 44-O'SHAUGHNESSY will serve Middle Point and Jennings, conveniently connecting to 3rd and Palou. Peak-hour only service to the Shipyard will be provided by an extension of the 19-POLK.

Changes on other MUNI lines, including many suggestions made at community meetings, will also be made at the same time as those on the 19, 35, 42, 44 and 54. Many MUNI riders will not only enjoy better connections between the City's neighborhoods, but more frequent service as well. This service will start within the next month.

New maps and timetables will soon be available for all the new lines. Watch for notices on your buses and in your newspapers. Or call us at 673-MUNI.

SEE INSIDE

More Service to Potrero Hill; No Longer Serves SP Depot

On Weekdays from 6 AM to 9 AM and 3 PM to 6 PM, service will be extended to the Hunters Point Triple A shipyard.

The 42-DOWNTOWN LOOP will provide service from the SP Depot to the Civic Center and other points.

Now Serves the Northern Part of Potrero Hill

The route is unchanged between Castro Street Station and Potrero Avenue. From Potrero and 24th, the 35 will run along Potrero, 23rd St. (providing more convenient service to San Francisco General Hospital), De Haro, 20th St., Texas, 22nd, Tennessee, and 20th St. to its terminal at Third and 20th.

The southern part of Potrero Hill will now be served by the extended 19-POLK.

**New, Fast Crosstown Line
from Bay View to the Richmond**

This new bus line will become a well-used route that will give residents of Hunters Point, the Outer Mission, the Inner Sunset, and the Inner Richmond direct access to the Glen Park BART Station, Forest Hill Station, and Golden Gate Park.

Students travelling to McAteer High School will also enjoy better and more direct service.

For riders who used the 51-SILVER the 44 will replace the 51 from Third St. along Silver Ave. to the Glen Park BART Station.

The 44 also replaces the old 10-MONTEREY north of Forest Hill Station.

Extended through Hunters Point

A more frequent 54-line will be extended to serve residents of Silver Terrace and Hunters Point. The 54 will run along Hudson Avenue east of Third Street.

This line will replace the Hunters Point ridge service of the 51-SILVER. Transfers to the 15 and new 44 lines can be made at Third and Palou.
